

TOYOTA ALLOY PROTECTION

INTRODUCING ALLOY PROTECTION

PEACE OF MIND FOR ANY ALLOY WHEEL DAMAGE, KEEPING YOUR WHEELS LOOKING SHARP.

Scuffs and scrapes happen easily if you hit a kerb or pothole in the road, and damaged alloys can affect the appearance and value of your car. Repair costs can vary, depending on the scale of the damage.

This is where Toyota Alloy Protection comes in.

Toyota Alloy Protection provides reassuring cover with an expert service. Using a sophisticated Toyota-approved process, an experienced technician will restore your alloys to pristine condition.

Designed to suit your lifestyle, this specialist process can be carried out at your home, place of work or at an approved repair centre near you.

Where there is extensive damage, which goes beyond a cosmetic repair, Toyota Alloy Protection can provide a contribution of up to £150 towards replacement alloy costs.*

It's the intelligent way to protect your alloys.

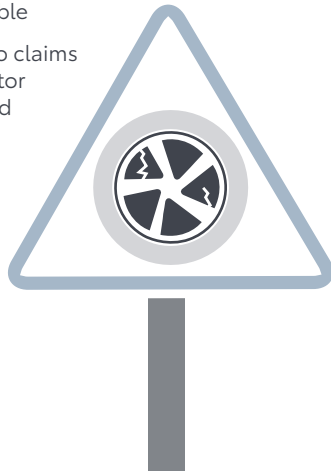

*The policy will contribute up to a maximum of £150 (including VAT) towards the replacement cost of the alloy wheel. The replacement must be purchased from a manufacturer approved supplier and be of an identical part code or direct successor part code.
